

# CONFERENCING

*Solo Executive 8-Channel System*

*Solo Executive Charger Base*

## Solo™ Audio Solutions

### Revolabs Solo™ Executive 4 or 8 channel Wireless Microphone System

The Revolabs Solo™ Executive Wireless Microphone System combines two-way audio, wide band quality and encryption with the Revolabs MaxFlex™ technology. MaxFlex supports any combination of three innovative, interchangeable form factors; wearable, hand-held and boundary microphones. This allows the audio in the room to be as flexible as the environment. The Solo Executive Wireless Microphone System connects seamlessly to other A/V equipment such as installed audio mixers and uses its own secure communication channel with two-way audio to maximize quality, security and control. Additionally, Solo Executive Wireless Microphone System may be linked together for up to a total of 16 microphones in North America and up to 24 microphones in the rest of the world.

### Revolabs Solo™ Single Channel Wireless Microphone System

The Solo Single Channel Wireless Microphone System uses Revolabs MaxFlex™ Technology and supports all three types of Solo Wireless Microphones. The Solo Base plugs directly into the conferencing system audio input port\*\*, or a USB port for connection directly to a personal computer. It plugs into a power source to serve as the charger for the Solo Wireless Microphone.

## Revolabs Solo™ RF-Armor™ Wireless Microphone

Impervious to Radio Frequency (RF) interference! The RF-Armor version has exceptionally robust shielding which enables the microphone to operate cleanly even when in direct contact with all wireless electronic devices known to cause unwanted audio interference, such as GSM mobile phones, smart phones, etc. Used with and backwards-compatible with all Revolabs Fusion and Solo Systems.

Actual Size Solo Wearable Wireless Microphone

## Revolabs Solo RF-Armor™ Wearable Wireless Microphone

High quality wideband audio for exceptional voice reproduction in a very small form factor.

0.9" x 0.8" x 2.6" / 2.4 cm x 1.95 cm x 6.68 cm

Used with Revolabs Fusion and Solo Systems. Up to eight hours of continuous use on a single charge. Recharges in two hours. Feel free to walk around the room and enjoy the secure, crystal sound!

## Revolabs Solo RF-Armor™ Tabletop Wireless Microphone

High quality wideband audio for exceptional voice reproduction in a very small form factor. Used with all Revolabs Fusion and Solo Systems.

Available in omni-directional and uni-directional microphone patterns. Up to eight hours of continuous use on a single charge. Recharges in two hours, or add the AC adapter accessory, eliminating the need to return the unit to a charger.

Enjoy the secure, crystal clear sound without any wires to trip over!

\* Omni-directional picks up sound from a 360 degree area around the microphone and uni-directional picks up sounds in front of the microphone (plus/minus 45 degrees)

Actual Size Solo Tabletop Wireless Microphone

## Revolabs Solo™ Wireless XLR Adapter for Handheld Microphone

The Solo XLR Wireless Adapter provides a robust and secure wireless link to any dynamic handheld microphone. Wideband audio provides for exceptional voice reproduction. Can be used with Revolabs Fusion and Solo Systems. Up to eight hours of continuous use on a single charge. Recharges in two hours. Perfect for "green", energy efficient buildings! Enjoy the wireless freedom during open mic meetings, Q&A sessions, classrooms, etc!

Not shown actual size

\*Not as pictured. Handheld microphone is not included.

The Always-on Charger allows the Solo Tabletop Wireless Microphone to plug into a power source.
