

Communication Assistant Series

Enhanced Communications Solutions

Productivity Application Suite

Panasonic ideas for life

Enhanced Communications

Customized communication solutions for business that leverages today's best technologies.

Using a combination of advanced telephony products along with other IP-enabled applications, Panasonic provides richer, fully-capable business communication solutions for your business today.

CA – Communication Assistant Productivity Application Suite

Communication Assistant is a highly-intuitive application for the NCP and TDE platforms. It provides a number of features including:

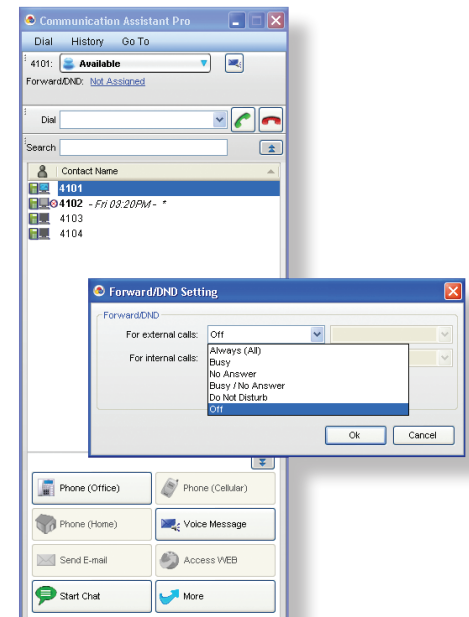

- Enhanced Voice Messaging (VMA)
- Instant Messaging (Chat) and Presence Capabilities
- Microsoft® Outlook®, CRM (TAPI) and Third Party Database (LDAP) Contact Integration
- Thin Client Support¹
- Softphone

In addition, you can access presence information on other Panasonic PBXs and initiate chat or make and transfer calls across the network (server version required).

Communication is key to running a successful business, whether you are small or large. Communication bottle-necks can seriously affect customer service, damage client relationships and lower productivity.

Panasonic Enhanced Communication productivity suites offer an affordable, flexible, and reliable solution that can deliver improvements such as:

- Increase Revenue
- Enhance Customer Satisfaction
- Reduce Cost & Improve Employee Productivity
- Strengthen your competitive position

Remote Worker using Softphone

Phone Operators

Office worker checking Voice Mail

Supervisor supporting team members

Office workers

Solutions from Panasonic

Communication Assistant productivity suite removes communication obstacles, improves productivity and significantly delivers on a strong ROI.

Panasonic offers a variety of functionality levels from standard with CA Basic through enhanced with CA Pro to meet any need:

Mode	Targeted Solution	Benefits
Communication Assistant Basic	Point and click unified communications for desk based or remote workers.	Helps you visually control all your communications from your PC.
Communication Assistant Pro	Point and click unified communications for desk based or remote workers. Provides users with real-time rich presence information.	Visually manage all your communications from your PC from anywhere in the world. Presence and chat/IM allow you to quickly identify coworker availability.
Communication Assistant Supervisor	Team supervisors to monitor employees' call activities.	Helps you to visually manage all your groupmembers telephony activities.
VoiceMail Assistant Module	Enables access to unified messaging.	Allows users to check their voicemail messages visually from a PC as well as forward messages to others as .wav files via email.
CA Operator Console	Manage & redirect multiple calls simultaneously.	Permits more efficient handling of a large volume of call traffic including parked calls. Drag and drop call transfer makes for fast and effective call handling.

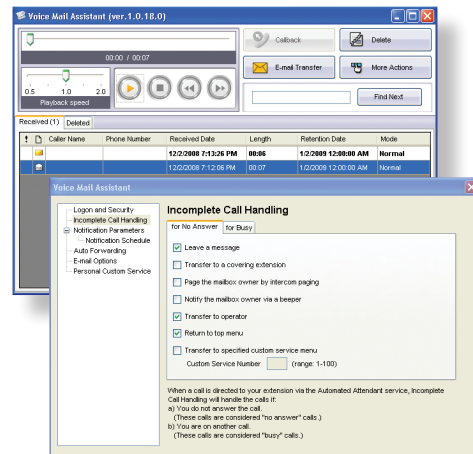

VM Assistant – Flexible, Easy-to-Use, Unified Messaging

Access any voice messages you have and in the order that you prefer to retrieve them. All you need is a computer with network access with VM Assistant.

Additionally, companies using the optional KX-TVA voice Messaging solution can use Communication Assistant to visually manage their voice mails with Voice Mail Assistant.

This allows you to:

- Visually see their voicemail messages
- Play and pause messages
- Skip messages forward or rewind messages
- Change the playback speed
- Delete unwanted messages
- Centralized voice mail feature allows you to seamlessly share messages across all your networked PBXs.
- Change and administer voice mailbox options
- Export messages to their PC
- Call back the person who has left the message
- Send a message as email attachment
- Transfer a message as an email attachment using Outlook

Communication Assistant – IP Softphone

CA IP Softphone module allows road warriors, sales and support staff or anyone else to use their computer as an IP Phone for anytime, anywhere access to the Panasonic Enhanced Communications suite.

By simply connecting to the network, IP Softphone provides the corporate teleworker and remote or traveling employees the ability to connect to the Panasonic NCP or TDE platforms just as if you were in the office, providing cost-effective communications and access to advanced desktop productivity applications such as Communication Assistant.

Key Features
