

Clauss FIBEROPTIC STRIPPING KITS

NO-NIK® Fiberoptic Stripper 3-Piece Kit

This sturdy 3-piece No-Nik Fiberoptic Stripper Kit is available with the most popular sizes, 203 microns (Red Handles) 254 microns (Light Blue Handles) and 305 microns (White Handles). The vinyl case protects these precision tools and provides convenient safe storage.

A must for specifying engineers, quality control supervisors, production control managers, purchasing agents and distributor sales representatives.

Stock number: NN03.

Case size: 102mm x 159mm / 4" x 6 1/4"

NN03

Fiberoptic 3-Piece Stripping Kits

NOW—Clauss provides a kit with three basic tools for fiberoptic stripping.

• NO-NIK® FIBEROPTIC STRIPPER

Clauss Fiberoptic Stripping Kits are available with a No-Nik® Fiberoptic Stripper for each of the following minimum cutting diameters: 152 microns; 175 microns; 203 microns; 254 microns; and 305 microns. Operating instructions are included. Specify the size No-Nik needed when ordering your kit.

• 86 1/2SF HIGH LEVERAGE KEVLAR® SHEAR

With a nonslip serrated blade, the Clauss 86 1/2SF High Leverage Kevlar® Shear provides the perfect solution for trimming back the DuPont Kevlar® that serves as the central strength member.

• FJS-2 JACKET STRIPPER

The FJS-2 removes the outside jacket from fiberoptic cable. Two stripping notches, one with a cutting diameter of 1.25mm and one with a cutting diameter of 1.50mm, can be used on 2.0mm and 3.0mm cable. It is easy to use and always leaves a clean strip.

A vinyl case protects the tools and provides convenient safe storage.
