RDP-353 Rack Mount Distribution Enclosure

APPLICATION

The RDP series Rack Mount Distribution Enclosure offers private network owners, installers and contractors a modular, easy to use solution for terminating and splicing optical fibers. The top lids are removable in both the front and rear, making the enclosure accessible and easy to install. Splice trays can be stored behind the adapter plate bulkhead enabling the RDPs to have a space saving solution even when splicing is required.

The RDP-353 Enclosure is 2RU in height (3.50"). This termination and splice enclosure will accommodate up to six 6-pack plates or six 8-pack plates and three splice trays. Enclosures are available with splice trays, adapters, pigtails, or preconnectorized cable stubs.

FEATURES

- Tinted poly front door
- Available w/splice trays, adapters, pigtails, or preconnectorized cable stubs.
- Black powder coat finish
- 19" and 23" rack mounting
- Top lid removable (both front and rear)
- Accepts LGX® compatible adapter plates and plug-n-play modules
- Hinged front and rear doors
- Direct connector identification cards
- Cable management spools in the rear

PHYSICAL SPECIFICATIONS

Dimensions: 3.5"H x 17.0"W x 12.0"D
Weight: 12 lbs (unloaded)
Material: 16 gauge steel with black powder coat

DESIGN CONSIDERATIONS

- LGX compatible
- Fixed tray
- Hinged front and rear doors

TYPICAL SPECIFICATION

Enclosures shall be mountable in either a 19" or 23" rack, be LGX compatible, and have a powder coat finish.
