

## 12" Enclosure with Screw-On Cover - EN1200

This 12-inch enclosure is the perfect solution for a basic or entry-level structured wiring system. It features large top openings that make pulling wire easier than ever before. The enclosure also boasts multiple knockouts, side lances, and side tabs for more flexible mounting. Includes a screw-on cover.

### FEATURES

- **Low cost:** Ideal for retrofit or entry-level projects
- **Uses less packaging than traditional enclosures:** Limits waste and shipping costs
- **Sturdy, durable construction:** Securely houses most On-Q modules
- **Left/right mounting covers:** Ensures maximum flexibility and a seamless, consistent installation every time
- **Compact frame:** Uses less wall space
- **Made in the USA**
