

Digital On-Hold Audio System

for use with ordinary analog and KSU-Less phone systems

On-Hold PlusTM 4500

Features

- **Built-In Analog Phone Adapter Module** - Add music-on-hold to conventional analog and most KSU-less telephones with up to 4 lines and 50 station sets. Works with all types of phones...even cordless.
- **MessageStudio Software** - includes award-winning MessageStudio software which allows the user to create new on-hold audio content on their PC with a few mouse clicks... and then record directly into OHP 4000's digital memory (Windows 95 or 98 compatible).
- **Digital flash memory** - design retains music/message content even during power loss... unit ships with preloaded audio.
- **LCD Control Panel** - displays program length, time remaining in unit's memory, and unit's status.
- **Trigger switch** - unit can be triggered to start program content from the beginning with an external trigger switch.
- **External Recording Capability** - audio input allows you to record from any external audio source (tape, CD or PC).
- **Built-In Monitor Speaker** - allows user to monitor sound with the flip of a switch.
- **Wall Mountable** - unit can be mounted, played and recorded in a vertical position.
- **3-year warranty**

Specifications

■ Sound Quality

The OHP 4500 utilizes ISD Chipcorder™ technology which was chosen for its superior sound quality over typical flash memory-based systems. Sound quality is comparable to systems with 128Kbps or better sampling rates

■ Input

External audio-in jack
