# PANALOG

PanaLog is a powerful call management tool that can be used in any Commercial Business, Home Office or General Home environment.

# 17 Different Reports 30 Different Graphs

PanaLog provides every customer that owns a Panasonic Telephone System an extra added value of call management. PanaLog puts you in control and lets you view all call activity, or zone-in on specific calls, employees, departments, dates, and more with our easy "Point & Click" Menu Options. Produce valuable reports or graphs in seconds.

PanaLog can measure and evaluate business activity, long distance bills, telephone abuse and much more. The best part about PanaLog is that you will NEVER have to spend another penny on call management products when you expand your telephone system. PanaLog will grow with you and your telephone system at no additional cost.

**Easy Point & Click Menu Options!**

PanaLog Call Management Software works specifically with the following Panasonic® Telephone Systems:  
**DIGITAL: KX-TD500, KX-TD1232, KX-TD816, KX-TD308**  
**HYBRID: KX-TA1232, KX-TA624, KX-T123211D, KX-T61610**

### Select your Panasonic Telephone System

- Click "Setup" from User Menu and select your telephone system.
- Click "Apply Settings And Click "OK".

### Start Receiving Call Data from Panasonic

- Click "Receive/Import Call" from User Menu and Click "Start Receiving Data"

# Key Features

- ❖ Monitor employee productivity
- ❖ Stop telephone abuse
- ❖ Link employee names to extensions
- ❖ Search call records by name
- ❖ Logs ALL Caller ID activity (unlimited)
- ❖ Converts area code to geographic location
- ❖ Flexibility to exclude Owners/Managers from reports
- ❖ Multiple search levels provides over 100,000 different ways to analyze call data
- ❖ View voice mail activity and voice mail call out logs for pagers, cell phones
- ❖ Call accounting section for billing clients or reviewing your long distance phone bill
- ❖ Home users-monitor/protect children-know who they are calling, what time, and who is calling them.

\*Note: Caller ID is necessary for inbound call tracking. Caller ID card(s) must be installed in your telephone system and Caller ID service ordered from your local telephone company.

## Fast & Easy Setup

# PanaLog Software / Additional Info:

Package includes: One PanaLog CD, One Security Key, and a Universal CAT5 Cable Kit for all Panasonic® Systems. There is also a User Guide included on the CD that customers may view on their computer or print for their convenience. The PanaLog Security Key is required to unlock the PanaLog Software program. PanaLog can be installed on any customer's existing computer, and can run in the background on your workstation. Our CAT5 cable can be replaced for an optional remote workstation capability up to 300ft. We designed multiple solutions to meet every business situation.

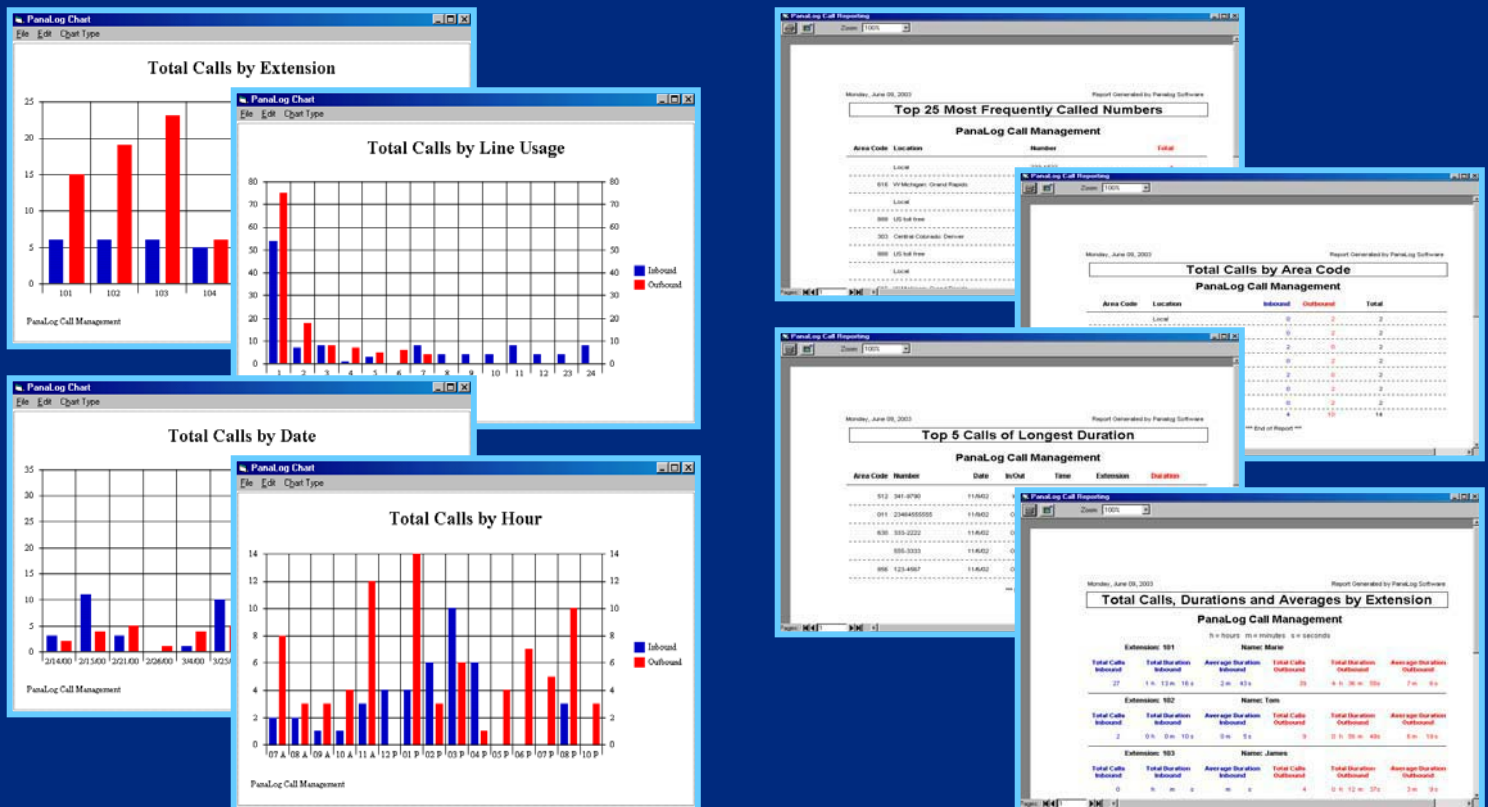

Technical Support: The PanaLog software serial number is needed for customer technical support and registration. Customers will receive unlimited support with a valid serial number. We can not provide support without a valid serial number. We do not provide support outside the USA. E-mail: support@panalog.com--Web: www.panalog.com

## Fast and Easy Connection

Simply connect our Cable Kit to the Telephone System and your computer. That's all there is to it! We will provide Free Technical Support and Free Training so you can produce powerful call management reports for your facility. In addition to providing quality products, we also provide excellent customer service and care. SMDR Fact: Panasonic® SMDR generates information about all inbound/outbound call activity to include: Date, Time, Extension, CO, Dialed Number, \*Caller ID, Ring Time, Call Duration, Account Codes and Condition (calls not answered, call transfer, etc.).
