APPLICATION

Leviton's QuickPlate wallplates are designed to distribute data, phone and TV connections. They facilitate a variety of connectivity solutions for both residential and office applications. This unique preassembled wallplate design provides quick and easy installation.

SPECIFICATION

The QuickPlate shall meet all applicable standards: cULus Listed; TIA/EIA-568A, FCC Part 68 and SCTE compliant. The units shall have a port label and each jack shall be labeled with appropriated wiring scheme. The Category 5e connector shall have the ability to support high megabit and shared-sheath applications. The voice grade connector shall accept all telephone applications and meet all applicable FCC requirements. The F-type bulkhead connector shall accept all video applications. The wallplates shall be offered in two sizes and four colors. The manufacturer shall provide a two-year limited product warranty.
