

## Color IR Camera Kit with Module - CM1030

Integrating the latest in camera and infrared technology, the Color IR Camera allows users to monitor their homes and businesses around the clock. Enjoy clear, full-color video during the day and bright, dynamic images at night. The camera's 24 IR LEDs ensure a vivid, clear picture, even in ultra-low-light environments. Reliable and versatile, the Color IR camera installs easily in any location to provide unmatched security and peace of mind. This kit includes the Color IR Camera, mounting plate, Camera Module ([CM1011](#)) and 12v power supply.

### FEATURES

- Full color images regardless of ambient light levels
- Twenty meter illumination range
- Dual window design prevents reflection and diffusion of IR light
- Adjustable sun shade
- Tri-axis movement
- Waterproof plate shields camera from weather damage
