

# SIP IP DECT Cordless Telephones

Enhanced Communications Solutions

KX-TGP550/500

# Panasonic ideas for life

# The power of SIP. Easy expandability with DECT.

Introducing the KX-TGP500 series phone system—the SIP/DECT small business communications solution. Never before has there been an easier, more convenient way to expand your SIP-based office phone system.

**Flexible Configuration Options**  
 Add headsets wherever you need them. All you need is an electrical outlet nearby.

**Each Base Station supports up to 8 phones**

The benefits are SIP are especially compelling in today's business environment where every dollar counts. The reduced hardware costs and simplicity of routing your company's calls over an internet connection can add up to huge savings on your monthly telephone bill. With the Panasonic KX-TGP500 series SIP phone system, you can quickly and easily add up to 6 cordless handsets—each with their own number. All you need is a single internet connection and an electrical outlet near wherever you want to add a handset. And because it employs DECT technology, you'll enjoy a secure connection and crystal-clear sound.

**13 Users: Main Number covered by 4 users plus 13 DID**

**one numbers and 6 Cordless Handsets.**

## Key Features
