

Wiremold

Resource RFB® Series RFB9/11 Floor Boxes

Large Capacity Floor Boxes for Power, Communication & A/V Applications

Protection from
water, dirt,
and debris.

Wiremold® Resource RFB® Series RFB9/11 Floor Boxes are excellent solutions for providing power, communications, and the special space requirements of audio/visual type connectors to above grade floors, in open space areas, or directly to the workstation. The tile and carpet style covers for these floor boxes incorporate TopGuard™ protection to prevent water, dirt, and debris from entering the power and communication compartments. RFB9/11 cover assemblies are UL Listed to U.S. and Canadian safety standards for tile, terrazzo, carpet and wood covered floors. RFB9/11 Floor Boxes have many unique applications, including schools, auditoriums, convention center ballrooms, exhibition halls, and institutional facilities.

RFB11 Floor Box with
RFB119CTCAL Cover

FEATURES & BENEFITS

- **Heavy Duty Cover Assembly** will accept loads up to **3,000 lbs.** Provides added protection for most applications.
- **Large capacity; the RFB11 has 11 gangs, and the RFB9 has 9 gangs to accept both power and communication devices.** Reduces installation cost by eliminating the need for multiple floor boxes to provide the necessary services to one location.
- **Two large cable egress areas.** Provides additional space and flexibility for both power and communication cable egress.
- **New lightweight “slab-on-grade” version.** Special fusion-bonded epoxy corrosion resistant paint finish allows “slab-on-grade” use without the weight of cast iron material.
- **Accepts standard industry sized device plates and industry standard sectional device plates.** Allows for quick and flexible installation of both power and communication devices.
- **Two box sizes available; 6" deep (RFB11) and 4" deep (RFB9).** Provides flexibility to provide power/communication services in various concrete pour depths.
- **Multiple trade size knockouts from 3/4" to 2".** Allows for most conduit schemes which saves time and money during installation.
- **Accepts a wide variety of Extron® Architectural Series video and audio products including computer video interfaces, twisted pair transceivers, and modular A/V connector plates.** Extron® Electronics is a leading manufacturer of audio visual system integration products. For additional information on Extron products, please contact your local Extron® Electronics Dealer.
- **Datacom connectivity options.** Accepts industry standard and proprietary devices from a wide range of manufacturers to provide a seamless and aesthetically pleasing interface for voice, data, audio, and video applications at the point-of-use.
- **TopGuard Protection.** Integral design component that prevents water, dirt, and debris from entering power and communication compartments. Whenever you see the TopGuard protection icon on any Wiremold product, you'll know it meets and exceeds UL scrub water exclusion requirements for tile and carpet floors.
- **UL Listed to U.S. and Canadian safety standards for tile, terrazzo, carpet, and wood covered floors.** RFB11 and RFB9 cover assemblies meet UL requirements under UL514A for scrub water exclusion.

RFB9/11 Floor Boxes are also
available in on-grade versions

RFB11 Recessed Floor Boxes Ordering Information
