- Size: 2.25" x 1.5" x .5"
- Cord Length: 56"
- Color: Black
- 1-year warranty
- Item #: CS-RS062

Healthy and harmless hearing.

With a unique acoustic design, these affordable earbuds fill your ears with music without damaging your eardrums. The earbuds deliver stellar sound while providing a comfortable and safe acoustic experience.

Why Reverse Sound?

Through a patented design of the earphone body and its acoustic chambers, the reversed sound waves flow back into the ear canal to mix with and enrich the sound waves emitted directly from the rear end of the speaker. The physical delay of the reversed sound waves blend to create a spatial and surround effect.

Because of the reversed position of the speaker unit, the SmartSound earbuds cause no harm to your eardrum. The ambient sound is allowed to come through your ear so that you can still hear sounds in your environment.

INTERCHANGEABLE EAR PADS

BASS BOOSTER has better acoustic sealing to enhance the Bass performance. Perfect for Rock & Roll, Hip Hop and Contemporary music.

FULL RANGE is the standard ear pad that provides an evenly spread full spectrum of sound.

SURROUND BOOSTER enhances Surround effect and is suitable for DVD Programs or any special music performance recordings.
