*Enclosures are not fire rated and therefore should not be installed in a fire rated wall.

Product Description

The SOHO Access™ Enclosures provide a fast, flexible, and clean distribution management solution for voice, data, video, and audio connections. Available in 14", 21", 28", and 42" heights these feature-rich, ruggedized enclosures are designed to be either flush mounted between sixteen inch centered studs or surface mounted via recessed mounting holes. The SOHO Access™ Enclosures also offer numerous cable entry knock-outs, a vertical and horizontal mounting hole pattern, and multiple cable tie attachment points offering better, cleaner cable management. All of our enclosures are UL listed for security alarm and fire signalling* applications. Each enclosure ships with one of three cover options; the solid Panel Cover, the solid Door Cover, or the Vented Door Cover. Both door covers provide a knock-out for a security lock.

Specifications

Dimensions

Enclosure ----- (14", 21", 28", 42")H x 14.25"W x 3.75"D
 Cover ----- (16.3", 23.3", 30.3", 44.3")H x 16.5"W x 0.35"D
