

## Wireless options that fit your workstyle.

VXi's V-Series Office Wireless Headset Systems cover the entire office connectivity spectrum. The V175 is a single-connectivity wireless headset that works with your office desk phone. With the V200, you can take calls on your desk phone and PC. While the V300 lets you connect to your desk phone, PC and smartphone—at the best value ever for a tri-connectivity wireless headset. All three are built on DECT™ technology, so you're free to go anywhere in a 350-foot radius from the base. Of course, because they're from VXi, you get great sound. Three wearing styles to choose from. And with the optional VEHS Electronic Hook Switch, you can answer and end calls away from your desk.

### Benefits

- Connect to your desk phone (V175), desk phone and PC (V200) or desk phone, PC and smartphone (V300).
- Enjoy up to 350 feet of great-sounding wireless freedom.
- Talk all day on a single charge (up to 10+ hours).
- Be heard clearly with superior noise-canceling microphone technology.
- Choose your wearing style: headband, ear hook or neckband.
- Answer and end calls remotely (with optional electronic hook switch or L50 lifter).

The VXi V-Series. More choices  
for a more-productive workday.
