WIRE MANAGEMENT PANELS

The new AllenTel wire management panels offers ideal solutions for patching applications. These panels fill one rack mount space on a 19" EIA standard rack. They are designed to provide organized installation for horizontal and vertical routing of patch cables. This allows the panels to be mounted, configured and managed to meet the needs of any installation.

AT55WB

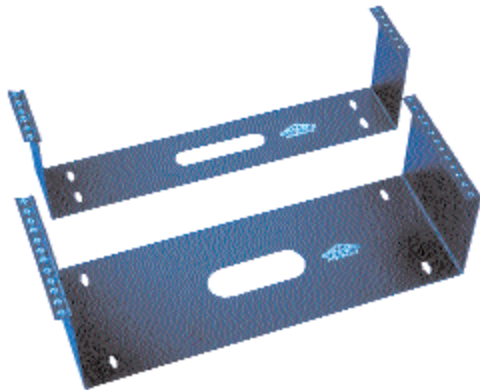

Cable support bar 19" (48.26 cm) long x 1.5" (3.81 cm) deep

AT55WMP-1

Wire management panel 19" (48.26 cm) long x 3.50" (8.89 cm) high e/w 5 horizontal distributing rings

AT55WMP-2

Wire management panel 19" (48.26 cm) long x 3.50" (8.89 cm) high e/w 4 horizontal distributing rings, 4 vertical rings, and 24 routing clips

AT55HM-3, AT55HM-7

HINGED WALL MOUNT BRACKETS

The AllenTel Hinged Wall Mount Brackets measure 19" (48.26 cm) x 6" (15.24 cm) deep and are designed to provide smaller systems requirements where a free standing rack is not required. All units come with hinges and mounting hardware. EIA standard hole patterns.

- AT55HM-1** 1.75" (4.45 cm) H
- AT55HM-3** 3.50" (8.89 cm) H
- AT55HM-5** 5.25" (13.34 cm) H
- AT55HM-7** 7.0" (17.78 cm) H
- AT55HM-10** 10.5" (26.67 cm) H

AT55CSB

CABLE SUPPORT BAR

The AT55CSB cable support bar is designed to mount on the rear of our Category 5 patch panels. This allows the user to maintain a proper bend radius of Category 5 horizontal cable. The AT55CSB also provides a strain relief for the cable and allows the twist as close to the termination point without stripping back any more of the outer jacket than necessary.

AT55CSB Rear mount cable support bar e/w mounting screws.
