Starts Up Your Equipment Even When Electrical Power Fails

Sits on a Desktop, Tucks Under a Console, or Mounts on the Wall

Free Power Management / Unattended Shutdown Software

3-Year Parts and Labor Warranty

\$30,000 MINUTEMAN Platinum Protection Plan® (U.S. and Canada)

a stand-by UPS for complete power protection

The MINUTEMAN Office Plus™ Series is an economically priced line of uninterruptible power supplies that provides complete protection from electrical problems — spikes, surges, sags, brownouts, and blackouts. Both the MINUTEMAN Office Plus 350 and 500 units are amazingly compact and, for all the power protection packed inside, take up little space on the desktop, under a console, or affixed to a wall. The flat-head power plug hugs the wall to save additional space.

Protect your multimedia PC and peripherals

Power problems can damage or destroy the data stored on your hard disk as well as the computer hardware itself. Both MINUTEMAN Office Plus models have 8 outlets — use the 4 UPS outlets to protect your CPU, monitor, and ink jet printer and the 4 surge-only outlets to protect peripheral devices such as speakers, laser printer, or scanner.

Power management software is included to monitor your UPS and safely shut down your computer system in the event of a power failure — a valuable feature if you leave your computer unattended. And, since surges and spikes can enter through a phone or network line, the MINUTEMAN Office Plus protects a modem, fax, or broadband Internet connection through its RJ-11/RJ-45 and coaxial cable connections.

Protect your telephone key system

Keep your phones working during power outages by adding a MINUTEMAN Office Plus UPS. Mount it on the wall or slide it into a corner. With its easy-to-replace hot swappable battery it is ideal for protecting small business phone systems.

Protect your home entertainment equipment and media center

Safeguard your HDTV, VCR, Web TV, DVD, and audio equipment as well as your satellite system and cable hookup with a MINUTEMAN Office Plus. Connect your coax cable to a MINUTEMAN Office Plus and protect your system from surges and spikes that travel across the cable line. Plug a VCR or DVD player into one of the 4 UPS outlets to preserve your program and memory settings if power fails.

Reliability — Guaranteed

MINUTEMAN Office Plus units are backed by an unprecedented 3-year warranty and the \$30,000 MINUTEMAN Platinum Protection Plan®.
