The small business world needs more: more productivity, more information, more time, more service, more solutions, more flexibility and more value.

Introducing the PowerTouch 480 by Aastra Telecom. Loaded with features designed to give you more – more telecommunication power than ever before.

With a large backlit display screen and six "softkeys" that provide different options based on activity, the PowerTouch 480 provides step-by-step instructions and menus for ease of use. Both the screen and multi-function indicator light are designed to provide more information with less effort.

Need to know who's calling while you are on line? The PowerTouch 480 provides one touch access to popular network features such as Call Waiting ID, Three-way calling and Call Forwarding. No need to try and remember special codes or find lists.

Want to keep a list of your customers close at hand? With it's large easy to read display and 200 name and number directory, the PowerTouch 480 provides "at a glance" dialing information from your directory or callers list. With one touch dialing you can quickly contact customers and provide more customer service.

Making and receiving more calls than ever? Improve your productivity using the built in handsfree speakerphone or plug in a headset for privacy while on the phone. Make notes during the call, check your email – be more efficient.

All these features and more, plus the quality and reliability you would expect in a business telephone, in a compact design that takes up less desk space.

The PowerTouch 480 – the "more" tool for small business.
