

LKA10

The Avaya LKA10 Cordless Headset System with Dial-Pad Remote

Enjoy hands-free convenience and the freedom to make and take calls away from your desk

Now you can make and take calls anywhere in the office. The Avaya LKA10 Cordless Headset System for DEFINITY® and MERLIN MAGIX™ desksets is a complete hands-free office solution with a pocket-size dial-pad remote. The system features a range of up to 150 feet, 10-number speed dial, and volume, redial, and mute functions. The LKA10 comes with a convertible headset that can be worn over the head or over the ear for complete hands-free, cordless mobility. Experience the freedom, comfort, convenience and great sound quality of the Avaya LKA10 Cordless Headset System.

- **Cordless Mobility:** Never miss that important call again.
- **Call Pick Up and Dial Out:** Initiate and answer calls, check voice mail, or leave a message, even when you're away from your desk.
- **Enhanced Communication:** Noise-canceling microphone minimizes background noise to deliver superior sound clarity.
- **Improved Productivity:** Hands-free mobility lets you grab a file, check with a co-worker or retrieve a fax.
- **Proven Compatibility:** The LKA10 connects directly to the headset port on all Avaya 6416D+M and 6424D+M desksets. On virtually any other Avaya deskset, combine with Avaya Handset Lifter Accessory for remote call answering and call initialization.

LKA10

The Avaya LKA10 Cordless Headset System with Dial-Pad Remote
