CPI's Complete Cube-iT PLUS™ Wall-Mount Solution

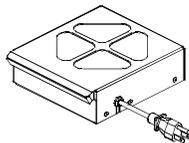

NEW! Cube-iT PLUS (featured on front)

- Durable, high strength steel construction provides structural integrity to support and protect equipment
- Hinge design allows for easy mounting and access to the rear of mounted equipment
- Front door and back panel are keyed alike
- Additional 30" depth and 48" height options for large equipment applications
- Configure your own Cube-iT Plus to fit your specific equipment storage needs.
- 150lb load bearing capacity

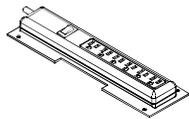

Horizontal Wire Management Bar

- Manufactured from high strength aluminum
- Use behind patch panels to provide horizontal wire management and strain relief for terminated cables
- Mounts to rear of vertical mounting rails
- Includes mounting hardware and 12 cable ties

Fan Kit

- Draws air into the cabinet, pressurizing the cabinet and forcing warm air out the side vents
- 100 CFM and 38 SIL DB provided in free air at 60Hz on a 115V, 15W, .20A service
- Mounts to the side of cabinet on existing louver
- Does not require any modification to cabinet
- Includes mounting hardware, air filter, and 4 cable ties

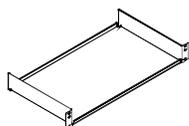

Horizontal Power Strips

- Six 3-prong 110 outlets
- Features 6' cord and On/Off switch
- Available with or without surge protection
- Mounts to the side of cabinet's rear subpanel
- Includes mounting hardware

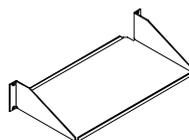

Light

- Provides interior light for technicians performing service calls
- 8 Watts of florescent light from 115V, 15W, .15A service
- Mounts to the bottom or top of cabinet body
- Does not require any modification to cabinet
- Includes mounting hardware and 4 cable ties
- Only available in white finish

10" Deep Shelf

- Provides 17.25"W x 10"D surface for equipment
- Supports 40 lb
- Mounts flush with front face of mounting rails
- Requires 2 RMU

Small Peripheral Shelf

- Provides 17.36"W x 9.8"D surface for equipment
- Supports 50 lb
- Projects 9" beyond vertical mounting rails into the depth of the cabinet
- Requires 2 RMU
