SOHO & RESIDENTIAL SOLUTIONS

The heart of the SRS solution is ICC's Distribution Center. Designed to be wall mounted or fit between wall studs, the Distribution Center features access holes conveniently located on the top and bottom. A removable front access door gives a neat, clean, finished appearance.

The Distribution Center is supplied with a 1:8 telephone distribution module with an RJ-31X security jack, an 8-port data module, and a 6-way video splitter for CATV.

Optional networking hubs are available in either a 5-port 10 Base-T or 8-port 10/100 Base-T switching hub. The versatility offered by these hubs the networking needs for any SOHO or Residential application.

ICC's CATV amplifier module amplifies weak incoming cable or off-the-air television signals in order to provide a crisp clear picture.

To complete CATV distribution, 6-way and new 8-way CATV splitters, termination caps, and high-performance F-Connectors have been added to the SRS.

ICC's SOHO solutions are supported by a wide variety of wall outlet styles and connectivity options found in the MPS and COS sections. Additional products may be found in the PCS and RSS families.

SOHO & RESIDENTIAL SOLUTIONS

SOHO & RESIDENTIAL SOLUTIONS

FEATURES

Telephone modules can interconnect to increase the number of telephone extensions in groups of eight.

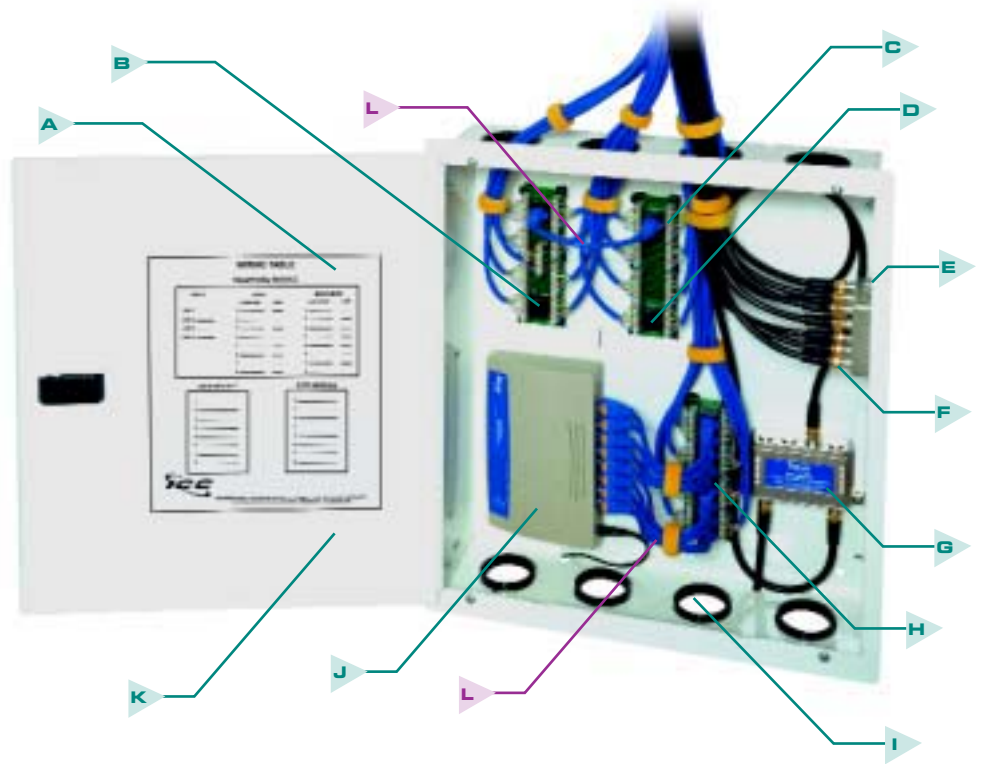

Multiple access holes for easy cable routing.

ICC's CATV 6-way signal splitter.

8 port Category 5e data module and 8 port switching hub.

COMPACT DISTRIBUTION CENTER

ICC's compact distribution center is ideal for residential and small office/home office applications. The solution features a compact distribution center and will accommodate telephone and data modules, a passive CATV 6 or 8-way signal splitter, CATV amplifier, and a network hub.

A Magnetic ID label	**B** RJ-31X security jack	**C** IC110 IDC 4-pair wiring blocks (optional)	**D** RJ-45 expansion jacks
E Grounding stud	**F** F-Type coaxial connector	**G** CATV amplifier (optional)	**H** Eight CAT 5e modular jacks
I Top and bottom cable access holes	**J** 8 port switching hub or 5 port hub (optional)	**K** Reversible heavy steel door	**L** 1 ft. Category 5e patch cord

Compact Distribution Center

The heart of the SRS solution is ICC's Compact Distribution Center (CDC), which is designed to fit between 16" wall studs, and with access holes located at the top and bottom. The reversible hinged door allows for right or left hand opening in confined spaces. The CDC is 18" high by 4" deep. A clean crisp white finish provides an aesthetically pleasing appearance. Included with the CDC is a 8-port bridged telephone module with security RJ31X jack ICRDSVPA10, 8-port non-bridged data module ICRDSDPA10, 6-way video splitter ICRDSAVP60, and all necessary mounting hardware.

ITEM NUMBER	DESCRIPTION
ICRDSDC1BK	Compact Distribution Center

8-Port Telephone Modules

ICC's telephone distribution modules provide a termination point for up to eight phone locations, and up to four incoming lines. Includes a front mounted 110 punch-down terminals for easy installation. The modules are available with an expansion jack or RJ31X security jack.

ITEM NUMBER	DESCRIPTION
ICRDSVPA10	Voice, 8-Port Bridged with RJ31X jack
ICRDSVPB10	Voice, 8-Port Bridged with expansion jack

8-Port Data Module

ICC's 8 Port data module terminates up to 8 CAT 5e data lines. Front mounted 110 punch-down terminals and modular jacks provide easy installation.

ITEM NUMBER	DESCRIPTION
ICRDSDPA10	Data, 8-Port, CAT 5e Non-Bridged

CATV Amplifier Module

ICC's CATV Amplifier Module provides signal amplification for CATV or off-the-air antenna signals. The CATV Amplifier features 15dB gain, very low noise level, a bandwidth of 54Mhz to 1Ghz, and passive return. The Amplifier module mounts with double-sided mounting tape.

ITEM NUMBER	DESCRIPTION
ICRDSCAM15	CATV, Amplifier

CATV Splitter Modules

Our CATV splitter modules provide distribution of cable TV, off-the-air antenna signals, and more. The modules have a frequency bandwidth of 5 mhz. to 1 Ghz.

ITEM NUMBER	DESCRIPTION
ICRDSAVP60	CATV, 1 Input X 6 Output Passive Splitter
ICRDSAVP80	CATV, 1 Input X 8 Output Passive Splitter

PRODUCTS

Network Hubs

ICC's networking hubs are ideally suited for the networking demands of any small office or residential environment. Both the 5-port 10 Base-T Hub and the 8-port 10/100 Base-T Switching Hub are IEEE 802.3 compliant, and feature built in LED lights for network status and power. The hubs mount easily with a VELCRO® mounting system.

ITEM NUMBER	DESCRIPTION
ICSRS05PHB	Hub, 5-Port 10 Base-T
ICSRS08PSH	Hub, 8-Port 10/100 Base-T

CATV F-Type Connectors

ICC's one-piece high quality connectors for RG-6 shielded coaxial cable. The easy to use compress and trap design, and nickel plating make these F-type connectors ideal for use with Digital CATV, Satellite, and HDTV applications.

ITEM NUMBER	DESCRIPTION
ICRDSAV01F	One-piece F-Type connector, RG-6, **20 pcs. /bag**
ICRDSAV04F	One-piece F-Type connector, RG-6, Quad Shield, **20 pcs./bag**

CATV Termination Cap

The CATV termination cap is designed to terminate unused CATV splitter ports or CATV wall outlets.

ITEM NUMBER	DESCRIPTION
ICRDSTC75F	75 Ohm. Termination Cap, **20 pcs. /bag**

ICC's Wall Outlets Complete the SRS Solution

Classic™ faceplates bring a traditional look to the faceplate with a wide variety of connectivity options.

Decorex™ meets the need for contemporary styling along with the same connectivity options as the Classic™ series.

The Communication Outlet Solutions offer a wide variety of combinations and styles for voice and CATV requirements.

All these faceplates and more may be found in the MPS and COS sections.
