

# Middle Atlantic RSH Series Custom Rackmounts

Visit [www.middleatlantic.com](http://www.middleatlantic.com) to see if the dimensions for the component you want to rackmount already exists among 6,000 kept on file. If we don't have the dimensions, we strongly suggest that you insure the component and ship it to Middle Atlantic via UPS so that they may accurately measure it. They will ship the component to you insured, the next day. The completed custom mount will follow 2-3 days later.

A second ordering option for custom mounting components with dimensions we don't have on file is to FAX us the measurements (please call for instructions on how to do this). The use of dimensions provided in the component's owner's manual is **NOT** recommended. **Please measure carefully as RSH units are custom-made and non-returnable.**

UNIT MAKE & MODEL	WIDTH	HEIGHT	FOOT	DEPTH	FINISH	QTY

- RSH4A** : black brushed and anodized
  - RSH4C** : silver brushed and anodized
  - RSH4S** : black textured powder coat
  - C** : clamping kit for all above
- NOTE: If you are selecting the clamp option, suffix the part number RSH with a "-C"

**I agree to accept all custom rack mounts manufactured and shipped according to the specifications stated on this form.**
