

Infin-e-Station™ Modular Face Plates (Front-loading)

Infin-e-Station™ modular plate system is designed for front loading installation using Hubbell's Xcelerator™ jack series and our comprehensive offering of audio, video and fiber Snap Fit connectors in single and double gang applications delivering network convergence to your work area.

The Infin-e-Station™ modular plate series provides you the flexibility to address your specific requirements.

This series accept any modules in 3 unit combinations for single-gang; and 6 unit combinations for double-gang applications.

All Infin-e-Station™ frames supplied with clear and color-coded label fields

Front load installation

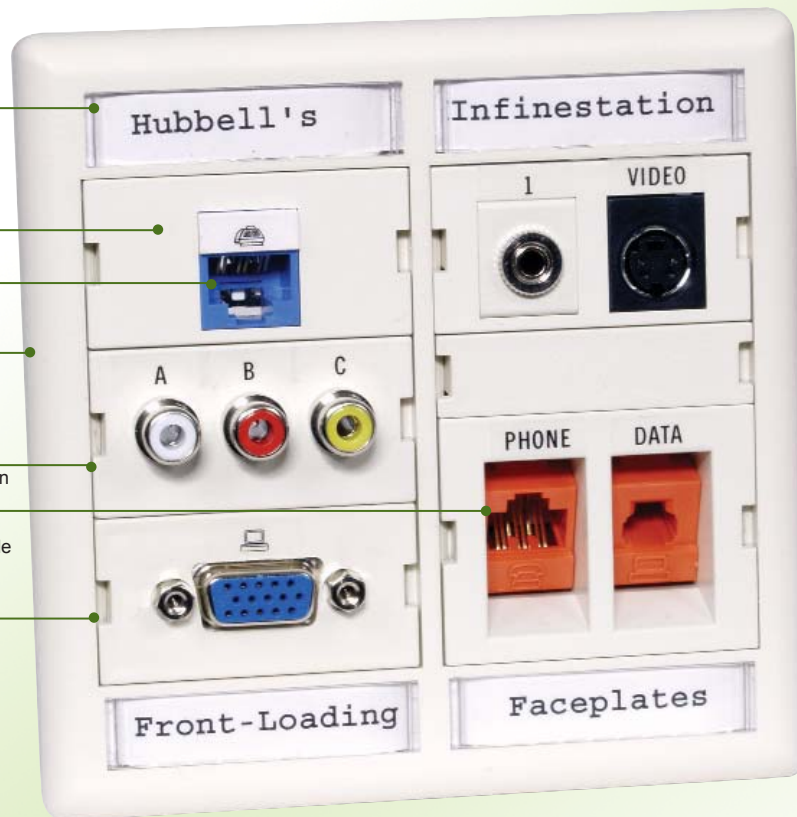

Flush Keystone mounting

Aesthetic profile

Easy, snap in installation

Flexibility to configure angled and/or flat profile modules

High-density:
6-port (single-gang)
12-port (double-gang)

FEATURES

- Single- and double-gang applications
- Easy module release latch
- Front-loading, snap in fit for security
- Supports multimedia applications
- Flush mounting with box eliminators
- Configure to specific requirements
- ANSI/TIA/EIA-606-A station labeling capability

ORDER INFORMATION - Plate Frames

These front-loading plates accept any modules in 3 unit combinations.

Start by selecting a frame and then the required mix of modules.
