

Slim 5 Series Equipment Rack Enclosure

Versatile Rack Frame System Satisfies Many Design Requirements

Specify a Slim 5 when multiple racks need to be joined or when open sides are desirable. Ships ready-to-assemble to reduce shipping costs.

Structural Features

- ✓ Available in 20" and 26" useable depths
- ✓ Weight Capacity:
 - Static load capacity, 1,000 lbs.
 - UL Listed load capacity, 400 lbs.
- ✓ Wide range of cabinet options makes rack adaptable to a multitude of different installation environments
- ✓ Optional removable steel side panels provide security while attractive thermolaminate top and side panel options provide aesthetic appeal for home and studio installations
- ✓ Heavy-duty 14-gauge steel top and bottom contribute to unsurpassed rigidity of rack design
- ✓ Standard front and rear fixed 11-gauge, 10-32 threaded rackrail with marked rackspace increments to speed equipment mounting
- ✓ Optional casters can be bolted directly to bottom of rack or concealed in skirted base
- ✓ Unique mechanically interlocking corner joint is central to each unit's exceptional strength and eases assembly
- ✓ Bolt-together design allows for flat shipment via UPS
- ✓ 1/2" and 3/4" top and bottom electrical knockouts in rear of rack for cable pass-through
- ✓ **NEW** top accepts two fans
- ✓ UL Listed in the US and Canada
