# JackRapid™

## 8- & 6- place jack punchdown tool

### Install your Cat 5(e) jacks 8 times faster!

#### Increase Productivity

**DRESS. PRESS. SUCCESS.** It's that simple! Never again punch into the palm of your hand or through drywall.

The latest innovation in Category 5(e) jack installation is here! Introducing the JackRapid™ punchdown tool, a unique, patented, 8- or 6-place jack termination tool. Save time and increase accuracy by seating and terminating all wires at once with a simple squeeze of the handle.

#### High Quality Terminations

- Built-in bed helps hold jack in place.
- Eliminates error during terminations.
- No more compromised connections and wasted jacks.

#### Cuts Installation Time

- Easy-to-use handle, seats and cuts all wires at once.
- Increases productivity – install jacks 8 times faster.

#### Future Proof

- Replaceable blade head for use with multiple jack types. Coming soon: Blade head for Leviton Cat 6 and other jack manufacturers.

Seat and terminate all wires at once with a squeeze of the handle.

#### Simple, One-handed Operation

- Reduce hand fatigue – one squeeze terminates all pairs!
- Virtually error-free terminations.

#### Wall-Friendly

- Unique design easily accommodates close-to-wall installations – no slack, no problem!

For use with Leviton Cat 3 & 5(e) jacks

**Compatible with Leviton P/N:**  
41106 (6-wire)  
41108 (8-wire)  
5G108 (8-wire)

**Ordering Info:** JackRapid Tool with Leviton Head Part Number 10059-600  
Replaceable Leviton Blade Head only Part Number 10059-601

1. Strip cable jacket.
2. Determine wiring scheme. Dress all 4 pairs (8 wires).
3. Insert jack in JackRapid front first with IDC slots facing blades of JackRapid.
4. Ensure jack is completely and securely inserted in jack holder bed with IDC slots facing the blades.
5. Pull trigger completely.
6. Wires will be seated and cut for a solid termination.
7. Release handle and remove jack from JackRapid tool. Visually verify proper termination.
