

Telecom Kits

industry standard tools

in custom-designed

nylon tool belt and pouches

Harris introduces three telecom kits filled with industry standard products for the professional technician upgrading existing equipment, or expanding into telecommunications. Each kit includes a quality Anso-Tex textured nylon belt and two pouches with compartments specifically designed to hold the individual tools.

Features:

- Dracon-brand industry standard tools designed to last a lifetime
- Test sets from the industry's most recognized name
- Quality Anso-Tex® textured nylon tool belt and pouches - specially designed for telecom tools
