

Valcom Clocks

Cost-Effective Clock System Uses the Same CAT 5/6 Cable as the Speakers & Call-In Switches!

Wired Clocks - Analog

Cost effective, precision time clocks for schools, healthcare, universities, manufacturing, corporate and government. Valcom's synchronized clocks provide the single, facility wide time standard that is so important in managing an organization's daily schedule.

Valcom's clocks offer innovative 2-wire correction which provides instantaneous time corrections following power outages and daylight saving time. The low energy circuit design permits using inexpensive Category 3/5/6 cable! Perfect for new installs, perfect for retrofits!

- Low Energy Circuits
- May be used with other master clock systems
- Self Learning Correction
 - Sync wire (58th, 59th minute, 3 wire)
 - Digital (2 wire correction)

- ▶ **ANALOG Surface Mount, Black**
 - Metal Case
 - Low Profile
 - Built In Self Diagnostics
 - Shatter Proof
