

True Touch™ Decora Touch Dimmers

Product Line Description and Product Range:

The new True Touch™ Decora Digital Touch Dimmer is ideal for applications where a low-profile contemporary touch dimmer is desired. True Touch provides fingertip full-range dimming control for incandescent and magnetic low-voltage lighting. Touch once anywhere on the pad to turn lights ON at preset level; touch once anywhere for OFF. Touch and hold to select the precise brightness level desired. True Touch provides full-range single-pole and multi-location dimming when used with remote unit.

Market Needs:

Touch dimmers provide universal design benefits because fingertip control is easy and convenient for people of all ages and abilities. Leviton True Touch dimmers provide low-profile Decora styling, precision fingertip operation, remote switching capability, and all-digital circuitry for enhanced performance. True Touch color change kits simplify stocking inventory by eliminating the need to stock a separate device for every available color. These features make True Touch ideal for any residential or commercial application where a touch control dimmer is desired.

Major Selling Features:

CERTIFICATIONS

- **UL Listed (File # E-31373)**
- **CSA Certified (File # LR-3413)**
- True Touch provides fingertip ease of use and precise adjustment of lighting levels. Simple one-touch for ON at preset level or OFF; touch and hold for BRIGHT/DIM lighting control.
- True Touch dimmers feature a locator LED that illuminates when the lighting load is OFF. (Remote units do not have locator LED)
- Protected memory during temporary power failures ensures that True Touch will retain last setting before power interruption.
- Provides single-pole dimming and 3-way multi-location dimming when used with Remote Dimmer (Cat. No. TT00R-1).
- Cat. No. 6606 Decora Touch Dimmer available for single-pole applications only. (No soft-ON/Fade-OFF or multi-location features).
- Digital circuitry provides Soft-ON/Fade-OFF switching for an eye-pleasing effect and extended lamp life.
- Built-in radio/TV interference filter.
- Use with Leviton DPSPE-112 Power Extender to extend load capacity to 2000W (2000VA) for incandescent, magnetic low-voltage and Advance Mark X™ fluorescent ballasts.
- Use with Leviton DPSPE-212 Power Extender to extend load capacity to 2000VA for Advance Mark VII™ and Motorola Helios™ fluorescent ballasts.
- Attractive Decora styling blends with any interior.
- Compatible with Decora screwless and Decora standard designer wallplates
- Available in ivory, white, almond, white-silver and ivory-gold. Color change kits available in many additional color combinations
- Backed by Leviton's Limited 2-Year Warranty.

Positioning the Product:

Leviton's True Touch dimmers combine subtle Decora styling with a fingertip touch control operation that's user friendly for a wide range of people. With advanced all-digital circuitry, the added convenience of multi-location switching remotes and cost-effective color change kits, True Touch is designed to deliver optimum performance.

Selling Against the Competition:

Key Points Selling vs. Lutron

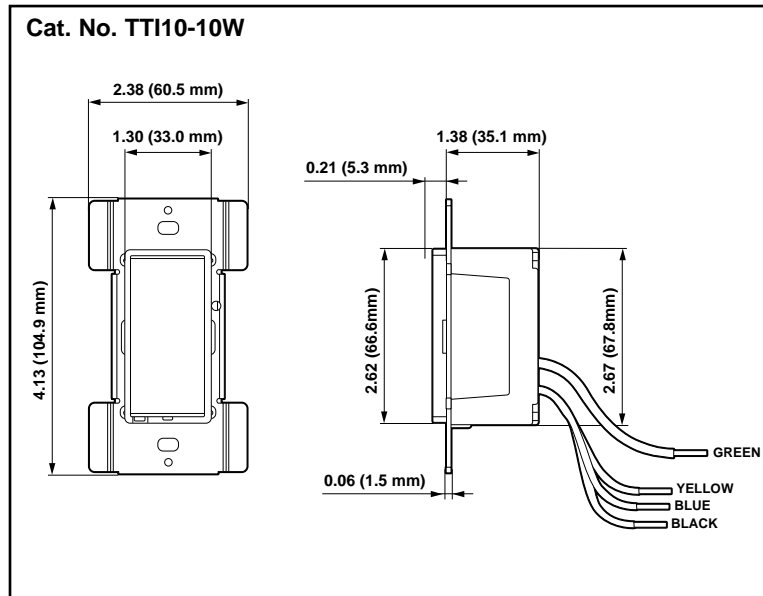

- ✓ Lutron does not have a digital touch control dimmer in its product line.

**Key Points Selling vs. Pass & Seymour
Legrand's Lumaspec line**

- ✓ Pass & Seymour Legrand's Lumaspec line offers touch dimmers rated for incandescent lighting only. Leviton's True Touch line offers models for incandescent and magnetic low-voltage lighting.
- ✓ Lumaspec does not provide Soft-ON/Fade-Off switching.
- ✓ Leviton's Digital Decora True Touch dimmer provides a superior range of features in every aspect from performance to available color combinations than Pass & Seymour Legrand's Lumaspec line.
