## Modular Receptacles

Introducing a revolutionary new line of 15 and 20 amp devices engineered for fast and easy installation

## lev-lok<sup>®</sup>

Modular Receptacle System

### Simple & Easy to Use, Yet Provides Secure Connections

Leviton's latest receptacle family is a revolutionary design called the Lev-Lok™ Modular Receptacle System. It consists of a wiring module (locking connector with leads) and a rugged duplex receptacle with solid brass locking connection pins. Place the wiring module over the receptacle's locking pins, twist clockwise and the connection is secured.

Leviton's modular devices address the reliability and performance concerns of specification engineers without sacrificing the contractor's need for fast, easy installation.

- Receptacles constructed with impact-resistant thermoplastic nylon cover and body
- Four corner latches securely fasten the receptacle's face to the body
- Industrial grade receptacle features single-piece, brass wrap-around mounting strap, with integral ground contacts, for continuous conductivity and secure ground path
- Solid brass locking pins for strong, secure connection between receptacle & wiring module
- Backed by a Limited 10-Year Warranty
- Wiring module locks & latches to the receptacle
- Wiring Module ships with protective cover preventing debris from entering contacts until receptacle is attached
- Wiring module includes factory-installed circuit ID label. Electricians can save a step by labeling device locations during rough-in
- Receptacles offered in commercial, industrial and hospital grades; in both conventional and tamper-resistant configurations
