

Extend HDMI Over a Single CAT5e up to 300-feet

Conversions Technology CT60S HDMI Super Extender uses 1 CAT5e/6 cable to extend HDTV displays up to 300 feet at 1080p. The CT60 breaks the limitation of the HDMI cables transmission length. With the small form factor CAT5e it is more flexible and is easier to run in tight spaces, than HDMI cable.

The CT60S offers solutions for residential consumers, HDTV retail and show site, HDTV, STUB, DVD and Projector factories, noise, space and security concerns, data center control, information distribution, conference room presentation, school and corporate training environments.

Features

- One pair as a full functional module, no need of setting.
- One piece of CAT-5e/6 cable can substitute HDMI cable to achieve long distance transmission.
- Follow the standard of IEEE-568B.
- Transmission distance can be up to 50 meters for 1080p using CAT-6 Cable.
- Auto-adjustment of feedback, equalization and amplify, the user does not need to care about the length of the cable.
- Compact size.
- Signaling rates up to 1.65 Gbps in support of 1080P display.
