

BC PRO®

STANDBY UPS SYSTEMS

"We purchased four Tripp Lite UPS Systems for use on a new Compaq-based Novell network. The Tripp Lite units have saved us on several occasions during the past year. Your PowerAlert software has safely shut down our system on two occasions."

Aero-Chem, Inc

Donald J. Rosa, Vice President

PROTECTS PCs, WORKSTATIONS AND SERVERS

- *Provides Reliable Battery Power During Blackouts*

Allows you to work safely through short blackouts and safely shut down your system during longer ones.

- *Automatically Saves Open Files During Blackouts*

Built-in serial port connects the BC Pro UPS to any server or workstation. Use with PowerAlert Software and cabling (bundled with 1050 and 1400 models) to automatically save open files and shut down equipment during a blackout.

- *Protects Against Lightning and Surges . . . Guaranteed*

Stops damaging surges and filters disruptive line noise. \$25,000 Ultimate Lifetime Insurance guarantees your protection for life!

Economical Network Protection

BC Pro UPS Systems are the economical protection solution for stand-alone and networked PC and Mac workstations, small servers, hubs, routers and bridges. BC Pro's new features provide even more power protection and user convenience. All models feature a convenient battery replacement door which saves the hassle of returning a UPS for battery replacement and service.

Complete Power Protection

BC Pro UPS Systems provide complete protection against all types of power problems (brownouts, blackouts, surges and line noise). Up to 1400 VA of battery backup gives you time to save your open files and safely shut down your computer in the event of a prolonged brownout or a blackout. In addition, all AC outlets stop damaging lightning and

surges. \$25,000 Ultimate Lifetime Insurance coverage guarantees your critical equipment will stay safe from surge damage for life!

All BC Pro UPS models feature a built-in serial port which connects the UPS to any PC, workstation or server. Use with PowerAlert Software and cabling (FREE as a website download or included with 1050 and 1400 VA models) to automatically save your open files and shut down equipment during a blackout.

Advanced Power Condition Warnings

Microprocessor-controlled warning lights alert you to potential power problems before they affect your equipment.

-  AC Line Voltage: UPS is providing your equipment with surge-protected AC line power.
-  Using Battery: UPS is providing your equipment with battery power during a blackout or brownout.
-  Battery Low/Replace: Indicates low battery charge.
-  UPS Load: UPS's capacity has been exceeded (available on 850, 1050 and 1400 VA models).

Model	Capacity (VA/watts)	Backup Time Half/Full Load (typical minutes)	AC Receptacles (NEMA 5-15R)	Serial Port	Modem/Fax Port (type)	Dimensions H x W x D (inches)	Shipping Weight (lbs)
BCPRO600	600/345	24/8	6 (3 UPS/3 Surge)	1	1 line (RJ11)	10½ x 4¾ x 7	19

BC PERSONAL®

STANDBY UPS SYSTEMS

"I was so impressed with the performance of these units and by how much money they have saved us at work, I bought the BC Personal UPS for my home computer. You have excellent products."

*Roscoe Steel Company
Guyle Guderian*

PROTECTS PERSONAL COMPUTERS

- Provides Affordable UPS Protection**

Small price tag and small footprint make the BC Personal the perfect power protection solution for all home and office PCs.

- Provides Reliable Battery Power During Blackouts**

Allows you to work safely through short blackouts and safely shut down your system during longer ones.

- Protects Against Lightning and Surges . . . Guaranteed**

Stops damaging surges and filters disruptive line noise. \$25,000 Ultimate Lifetime Insurance guarantees your protection for life!

Affordable Protection for PCs

BC Personal UPS Systems offer surge suppression and reliable battery backup in one compact unit, priced only slightly higher than many premium surge strips. BC Personal is easy to set up and has the smallest footprint of any UPS on the market, staying out of your way on or under any desk. All models feature a convenient battery replacement door which saves the hassle of returning the UPS for battery replacement and service.

Complete Power Protection

BC Personal UPS Systems provide complete protection against all types of power problems (brownouts, blackouts, surges and line noise). Up to 450 VA of battery backup gives you time to save your open files and safely shut down your computer in the event of a prolonged brownout or a blackout.

In addition, BC Personal UPSs stop damaging lightning and surges. \$25,000 Ultimate Lifetime Insurance coverage guarantees your equipment will stay safe from surge damage for life!

Advanced Power Condition Warnings

BC Personal's microprocessor-controlled warning lights alert you to potential power problems before they affect your equipment.

-  AC Line Voltage: UPS is providing your equipment with surge-protected AC line power.
-  Using Battery: UPS is providing your equipment with battery power during a blackout or brownout.
-  Battery Low/Replace: Indicates low battery charge.*
